

Greenery.

A Greenfire Cryptocurrency Wallet

"No matter how the Korean staff tried to explain what an MP3 player was, people didn't understand why they needed such a device because they could listen to music with CDs or cassettes. A few people accepted the mp3 player as something cool, but most people didn't take it seriously."

- JR Bum, Vice President Of MPIXAR

The Problem.

Cryptocurrency wallets today, are basic.

No password recovery

Sending errors are common

Lacks expected visibility and management of digital assets for regular users and businesses

The Solution.

Make cryptocurrency management and accounting easier.

1. Never lose access to your funds

2. Conduct Business in Crypto

3. Secure NFTs

4. Easy Transfers to Crypto Human Readable Addresses

5. Participate in Web3 and DeFi

Addressable Market.

**Global Market is:
100+ Million Crypto
Holders
(and counting)
